

### **REMARKS**

Applicant has carefully reviewed and considered the Office Action mailed on August 1, 2003, and the references cited therewith.

Claims 4, 6-20, 22, 24, 26-41, 51, and 53-55 are amended, claims 1-3, 5, 21, 23, 25, 44-50, and 52 are cancelled, and claims 68-115 are added; as a result, claims 4, 6-20, 22, 24, 26-43, 51, and 53-115 are now pending in this application. No new matter is added.

Claims 7-20 are amended to be dependent on allowable claim 6 rather than claim 1 (claims 7-14 which were previously withdrawn now depend on claim 6 of the elected invention, and thus are part of the elected invention). New claims 68-81 are dependent on allowable claim 4, and are supported by original claims 7-20, respectively.

Claims 27-41 are amended to be dependent on allowable claim 26 rather than claim 21 (claims 27-34 which were previously withdrawn now depend on claim 26 of the elected invention, and thus are part of the elected invention and should no longer be withdrawn). New claims 82-98 are dependent on allowable claim 24, and are supported by original claims 27-43, respectively.

Claims 54-55 are amended to be dependent on allowable claim 53 rather than claim 48. New claims 99-100 are dependent on allowable claim 51, and are supported by original claims 54-55, respectively.

New claims 101-112 are supported by Figures 22G and 22H and the text at page 50 lines 20-23.

### **Double Patenting Rejection**

Claims 48-53 were provisionally rejected under the judicially created doctrine of double patenting over claims 1-33 of U.S. Application No. 09/815,844 (U.S. Pre-Grant Publication No. 2002/0047756). Applicant respectfully submits that this provisional rejection is moot and/or premature relative to the present application, since the present application is most likely going to issue first. Any such double patenting rejection would apply to the later-issuing application. Accordingly, it is respectfully requested that the provisional rejection be reconsidered and withdrawn, and that an early indication of allowance of the present claims be provided.

Claims 21-23, 26, 35, 36 and 41 were provisionally rejected under the judicially created doctrine of double patenting over claims 1-31 of co-pending U.S. Application No. 09/816,603 (U.S. Pre-Grant Publication No. 2002/0000034). Applicant respectfully submits that this provisional rejection is moot and/or premature relative to the present application, since the present application is most likely going to issue first. Any such double patenting rejection would apply to the later-issuing application. Accordingly, it is respectfully requested that the provisional rejection be reconsidered and withdrawn, and that an early indication of allowance of the present claims be provided.
